

## Post-Operative Instructions for: Deep Cleaning.

You may experience some cold and heat sensitivity (especially after deep cleaning).

1. If you have received anesthesia do not eat anything until the numbness has worn off.
2. Continue your regular brushing and flossing.
3. Some bleeding for a day or two after cleaning is normal, but if you experience any excessive bleeding call our office.
4. Call our office if you are in pain or if you have any questions.
